INDEPENDENCE BRINGS UP REAR

Columbia Was a Rather Better Second in the Run.

DETAILS OF THE RACE

BATEMAN'S POINT, R. I., July &-The race today between the Herreshoff yachts Constitution and Columbia and the Crowninshield vacht Independence was signaled to be sailed over a triangular course, ten miles to a leg, starting from five miles east southeast of the lightship. The wind was then blowing five knots from the south and increasing in force.

The roll of the ocean, which proved fatal to the Independence on Saturday, had not subsided today, and the water on the reefs and rocks of Bateman's Point was white with foam. The weather off shore was comparatively clear. The yachts were slow in getting out of the harbor on account of the light breeze. The Constitution came out first, with all sails set, in tow of a small team yacht.

She had her largest club topsail set, and the big sail was laced at the tack to the top of the mast. Next came the Independence also in tow, with large club topsail set and fitting well, but not laced to the mast, as in the case of the Constitution. The Columbia the last boat out, came down under her own sail, while right behind her was the excur-

judges' boat. The preparatory signal was fired at 11:50. and immediately the Independence was headed back toward the stern of the judges'

The Columbia was swung after her and just before the Independence reached the stern of the judge's boat the Columbia had, seemingly, established an overlap on the starboard and windward quarter of the Boston boat. Captain Haff, however, sent the Independence close under the stern of the judge's boat, much to the consternation of those on board the Columbia, which did not have room to tack. Mr. Morgan was heard to call to those on the Independ ence to give away and prevent a foul. Captain Haff, however, refused to budge, ap-parently believing that the Columbia had not established an overlap. Both yachts swung around the stern of the judge's boat a few seconds after the gun was fired, the Columbia just missing the after flagstaff. On getting around, the Columbia suc ceeded in getting the weather of the Independence and apparently blanketing her and going across some seconds ahead. In the meantime the Constitution, being well ut of the fray, had crossed the line ahead

the other two, and soon began leaving cial time of crossing the starting through the heart. No arrests have been

est with the old Hereshoff boat, had some lifficulty in reaching the line before the handicap gun was fired.

A few minutes after crossing the line the Constitution took a short tack to port in order to establish herself safely to weather of the other two yachts, and then ditions almost exactly the same as in Sat-urday's race, and soon began falling off inutes after the start was well astern. The Constitution, however, seemed to point idly pulled out on the Columbia, so that within fifteen minutes she was a good eighth of a mile ahead.

The warning signal was fired at 11:45. The wind was rather light from the southwest, not over four or five miles an hour, very slow one. A number of sailing yachts starting point.
At 11:51 a.m. the preparatory gun

fired, and the starting gun was fired at 11:55. The Constitution started off promptly. Independence and Columbia, however, are having hard work in reaching the line in In the first ten minutes of sailing the

Constitution gained rapidly and secured a lead of an eighth of a mile over Columbia, the latter being about the same distance At 12:15 p.m. the Constitution seemed to

standing out to sea on the starboard tack. Constitution appeared to have opened up considerably on the two other boats and to have a lead of nearly a mile over the Columbia and a mile and a quarter over the Independence. The new Herreshoff boat appears to be pointing very much higher than the other two.

At 1:15 p.m. the yachts were standing toward Point Judith, on the port tack, the Constitution apparently leading the Columbia over a mile, while the latter boat was about half a mile ahead of the Independence. The wind was freshening and blew about seven knots off shore. Down to the southwest a rain squall appeared to be

making up.
At 1:40 p.m. the wind had increased to over eight knots an hour, and both the In-dependence and the Columbia appeared to be picking up on the Constitution. The Conwas heading down toward the mark on the port tack

ROSEBERY VISITS KING EDWARD.

Audience Attributed to the Trouble in the Liberal Party.

LONDON, July 8.-Lord Rosebery came to London today and was received in audience by the king & Marlborough House. The public announcement of this visit to his majesty so soon after the former premier's return from the continent, whence he arrived Saturday, excites much comment, in view of the political situation. At the same time well-informed persons point out that it is extremely unlikely that the king will in any way attempt to intervene in what, after all, is wholly a family quarrel of the liberal party. Several re occurrences, however, articles weighty reviews, etc., seem to point to an organized effort to bring Lord Rosebery back into the political arena

TRAGEDY AT AKRON, OHIO.

Charles Waltz Mistaken for a Burgla: and Shot. AKRON, Ohio, July 8 .- Charles Waltz was shot and instantly killed by John W. Edwards, a Barberton photographer, last night. CHICAGO, July 8.-Policeman Michael O'Malley was probably fatally stabbed in the abdomen last night by a man whom he had arrested for insulting women on Curtis street. The officer's attention was called by a woman who had been accosted to three men, one of whom he arrested. He was attacked by the other two, and in the struggle that followed the man under arrest struck the fatal blow. The two then escaped, pursued by the officer until he fell exhausted from the loss of blood.

MINISTERS GRISCOM AND BOWEN AT STATE DEPARTMENT.

No Reason to Expect Any Change in

Policy Regarding Venezuela-Our

Relations With Persia.

Messrs. Lloyd C. Griscom and H. W. Bowen, the recently appointed ministers to Persia and Venezuela, respectively, were at the State Department today and received their commissions, and also final instructions as to their new duties. Mr. Gris-

com will sail from New York Wednesday, but will remain some time in Europe before proceeding to his post in Persia. Our relations with Persia are of such a satisfactory character that the minister has no issues of importance to unravel. Minister Bowen will be on leave for some

weeks, and as there is no pressing need for his presence in Venezuela he will not leave for about a month. His instructions are in writing, and, although surrounded with the privacy of all diplomatic communications, there is no reason to believe that they embody any marked change in the policy which the government has pur-sued up to this time on the questions which have engaged attention.

Mr. Bowen left with Chief Clerk Michael

two valuable relics of his service in the land of the golden lion, to be retained until he is authorized by Congress to accept them. Just prior to his departure from Teheran for home the Shah of Persia presented him with the decoration of Grand Cordon of the Lion and Sun, the most ancient and honorable order of Persia, and also with a massive gold snuff box, the lid of which contains a miniature portrait of the shah surrounded by fifty large diamonds.

Mr. Bowen was minister to Persia nearly three years and made a most favorable imon the Persian ruler.

Mr. H. A. Gudger, United States consul at Panama, had an interview with Acting Secretary Hill at the State Department today preparatory to his departure from New York tomorrow for his post of duty. Mr. Gudger has been spending a short leave of absence at his home in Tennessee. He has three years and has enjoyed exceptionally good health during that period.

NEW PHILIPPINE TARIFF.

Schedule Will Be Sent to Gov. Taft in a Day or Two.

The officials of the War Department have practically completed the preparation of the new Philippine tariff in accordance with the recommendation of the Philippine commission as modified by recent developments in this country. The tariff schedule will be entirely completed in a day or two and immediately mailed to Civil Gov. Taft, with authority to put it into immediate operation if it meets with his approval. It is, therefore, probable that the new tariff will be promulgated in less than six weeks' time. The new law is expected to produce a revenue of \$15,000,000 a year, which is regarded as sufficient for the support of the insular government and also to reduce materially mports from all countries except the United States and Spain. Particular attention has been directed to the protection of Philippine industries against competition of countries n the western Pacific and Indian oceans.

ALLEGED FOREIGN ALLIANCE. Acting Secretary Hill Places No Faith

in the Report. Acting Secretary of State Hill had his attention drawn today to a report printed meeting today decided by a unanimous vote in a Vienna newspaper, to the effect that Austria, Germany and Russia had formed a tariff league, directed against the United States, and that Italy and France were likely to join the league. Mr. Hill said that there was nothing in the information reaching the department to bear out such a report, and he regarded it as having no

LENTZ-TOMPKINS CASE.

Testimony in Contested Election Sent to the Public Printer.

Alexander McDowell, clerk of the House of Representatives, today opened and sent to the public printer the testimony in the contest case of John J. Lentz vs. Emmett Tompkins, involving the congressional seat from the twelfth Ohio district. The papers consisted of Lentz's charges and the testimony taken in support of them and Tompkins' answer. Tompkins' majority was only 18, and Lentz alleges that it was secured by the use of money. Tompkins makes denial of all the charges.

This is the last contest case to be opened by the clerk. These are seven of them. One involves the contest from the seventh South Carolina district over the seat which was accorded to Dr. Stokes, who has since died. According to precedents in the house the contest will be prosecuted regardless of Stokes' death. In four cases in which notice of contest was given the contestants

Mr. C. C. Beveridge, Mr. Wilson of West Washington and a number of others are mentioned in connection with the office of senior sagamore. There will be many aspirants for the post of junior sagamore, and Mr. A. W. Reynolds is mentioned as a fit candidate for the position of chief of records. Mr. A. H. Kahlert is also mentioned in connection with the office of great keeper of wampum. Many others in the order will probably be talked of as expeble candidate.

probably be talked of as capable candi-dates for these offices before the election

takes place.
Another business feature of the meeting will be the consideration of the new local constitution and by - laws, adopted here about six months ago and recently returned to the order from the Great Council of the United States with the approval of that exalted body. Other business of a general and routine nature will also be considered immensely since the incumbency of Great Sachem Tippett, who was elected to that office six months ago. There are now eight tribes in the District, with three auxiliary degrees, one of which includes many fe members. Officers of the organization say that the order is rapidly growing all over the country.

REFERRED TO EXAMINER.

Supplemental Proceeding in the Po tomac Flats Cases.

The Supreme Court of the District of Columbia, sitting in general term, with Justice Hagner and Justice Clabaugh on the bench, this afternoon, after a lengthy hearing, determined to refer the supplemental proceedings in the Potomac flats case to Albert Harper, examiner in chancery, for the taking of testimony. There was no limit fixed as to the time within which the taking of the testimony shall be completed, the understanding being that later if it appears that too much time is being consumed the court will be asked to limit the time. Attorney C. C. Cole, special counsel for

the government, explained that it is not his intention to press the taking of testimony during July and August so far as those claimants and their attorneys who desire to absent themselves from the city between the present and the 1st of September are concerned. The big majority of all the claims have been filed. The claimants will first submit testimony, the government will reply and the claimants will then offer evidence in

rebuttal. There are between thirty and orty claimants. The supplemental proceedings in the Po tomac flats case are being prosecuted for the purpose of reimbursing the owners of wharves and adjacent structures along that portion of the river front of the city title to which the Supreme Court of the United States has decided is vested in the gov-

ernment for such improvements.

Capt. Boardman, chief of the detective bureau, was this afternoon notified that a day passed on a 7th street merchant in payment for a bill of goods. The work of raising the note was very poorly executed, and but for the rush of business at the time would have undoubtedly been detected when it was offered by the person who have been assigned to the case.

The Washington and Virginia Stock Yard and Abattoir Company was granted a charter by Judge Norton in the corporation court at Alexandria this afternoon. The object of the company is stated to be to provide suitable accommodation for quartering live stock where such may be bought and sold, slaughtered and prepared for market. The capital stock is \$50,000. The Chas. E. Ebel, vice president; Louis T. Krey, secretary; Jeremiah E. Donovan,

Heavy Liquidation in Stocks Forced Prices Down Today.

Unsatisfactory Condition of Money

Market the Cause.

GENERAL MARKET REPORTS

special Dispatch to The Evening Star.

NEW YORK, July 8 .- Saturday's statement of the associated banks, showing a further loss in cash and the reserve down to the lowest point of the year, inspired a liberal selling movement in today's stock market. The money situation is decidedly unsatisfactory, and easy rates are not likely until fall. Loans are expanded and the demands for money for other than speculative purposes are increasing. Five millions reserve and nine hundred millions in loans suggest possibilities for involuntary liquidation sufficient to inspire caution in all conservative circles. While stop-loss orders and sales for the

short account were responsible for the de cline in today's market to a considerable degree, there was also an unmistakable undercurrent of genuine liquidation. Many of the strongest and most conservative house in the street were steady sellers throughout the day. The weakness in the high grade investment shares was due to selling of this char-acter. In the present state of the money

market the high premiums on the better class of securities inspire caution. day for borrowing on third-class issues has past, and the only means of protection for them is an unloading of shares of ac-tual and undisputed value at the banks. Discrimination as rigid as the laxity of the opposite course has been since last November is now forced upon the banking community. Another unwelcomed factor was the news of rate cutting in the west. Atchison officlais, conscious of secret rate cutting by competitors, have been forced into an open

in the community of ownership idea and shows very clearly the need of a further development of the plan. The roads concerned in this affair are de-pendent upon grain shipments for a considerable proportion of their prosperity, and while the fate of the harvest is still in doubt an unprofitable rate controvers is inaugurated.

The steel strike no longer looks formida

ble and present indications point to an

reduction of tolls on east-bound shipments.

This episode detracts from the confidence

early adjustment of all differences. The prospect had no effect upon the Steel shares, however, heavy sales being in pro-gress throughout the day. There was some disappointment that Mr. Morgan's return did not revive interest in these shares, but there seemed to be little effort in that direction. Some buying on a scale down was noted, but it was not in sufficient volume to give direction to the price movement. The coal stocks were heavy and reflected

sales of long stock upon a considerable

scale. The independent steel and iron shares and the industrial list generally

were weak. A few rallies in the market were shortlived and served to attract new selling from commission houses. Liquidation is desirable, and some of the larger houses were willing to stand aside and allow the process to proceed.

Money was offered down from 8 per cent to 2½, but the latter rate inspired only a covering of previous sales. There is no demand of any moment, and railies and reactions, with heaviness dominant, seem certain to prevail for a further indefinite
